SWAPNIL DUDHANE

Full Stack & AI/ML Developer

+91 8390821930 | swapnildudhane1930@gmail.com | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Full Stack and AI/ML Developer with hands-on experience building scalable web applications and machine learning / deep learning models. Skilled across the frontend, backend, and database layers, with a focus on data science and LLM-based solutions. Strong problem-solver and quick learner with proven leadership experience in organizing technical events.

EDUCATION

Pimpri Chinchwad College of Engineering, Pune *2026 – 2029*
Bachelor of Engineering in Computer Engineering (in progress)

Government Polytechnic, Kolhapur *2023 – 2026*
Diploma in Information Technology — 95.41%

Saraswati High School, Ichalkaranji *2022 – 2023*
Secondary School Certificate — 95%

TECHNICAL SKILLS

Frontend: HTML, CSS, Tailwind CSS, ReactJS, Streamlit

Backend: Flask, FastAPI

Databases: PostgreSQL, MySQL, MongoDB

Programming Languages: Python, Java, C, C++

Tools: GitHub, Postman, Docker, OLLAMA, Hugging Face, Qdrant

Other: Machine Learning, Deep Learning

PROJECTS

DataFlow — Automated File Analysis & AI Insights System

- Built a FastAPI-based data analysis system using the Cohere API, Pandas, NumPy, and Scikit-learn to convert uploaded files into interactive dashboards and pivot tables.
- Integrated an AI chatbot that answers user queries and surfaces insights from processed datasets.

Jarvis 2.0 — OLLAMA-Powered AI Assistant with RAG & Web Automation

- Developed an advanced conversational assistant using Gemma-2B and Mistral-7B via OLLAMA, with Retrieval-Augmented Generation (RAG), video scraping, and web scraping through LangChain.
- Enabled intelligent, context-aware conversations and automated information extraction.

MediCycle — Medicine Donation & Accessibility Platform

- Built a platform for donating, listing, and finding affordable or free medicines using HTML, CSS, JavaScript, and Flask.
- Designed an admin dashboard to manage listed medicines, user requests, and organizational records.

MarketMatrix — Livestock & Crypto Market Analysis Platform

- Built a real-time market analysis tool using Python, Streamlit, and yFinance to generate predictive insights for livestock and crypto markets.
- Implemented interactive charts, live market data feeds, and automated trend evaluation.

EXPERIENCE

AI/ML & Web Development Intern — NeuDayAI Pvt. Ltd., Pune *6 months*

- Contributed to AI/ML and web development projects during a 6-month internship, gaining applied experience across the development lifecycle.

CORE SKILLS

Communication | Leadership | Teamwork | Project Management | Problem Solving

EXTRA-CURRICULAR ACTIVITIES

- Team Head, Project Presentation Organization — Technova GPKP event
- Volunteer, CodeBrains — Technova college event team
